I thought I usually got an email from Grants stating that spending authority was open. I'll attach a copy from another project to show you what I mean.

They've signed our copy, so I would assume they're ready. But you can ask their PO if you'd like to make sure before getting spending authority.

So, we have to await word from them before I get spending authority from Grants?

Hi Brian,

Technically, we're all done on our end and our IA is finalized. I just sent them that MIPR because that's their version of an IA. We should be ready to receive if their PO says they are ready on their end.
